

Logging in to list.smu.edu

Each list has a unique login and password combination. In most cases, it synchronizes all administrator passwords across the various lists. This service does not use your SMUID and Password combination. Instead, it uses your SMU email address and a local password. The address must be in the same format in the listserv software (i.e. smu.edu and @mail.smu.edu are not interchangeable in Lyris!)

1. Login with your mail list (i.e. kappalambda@smu.edu) as the user name and your local password, click attempts.

Managing Multiple Lists

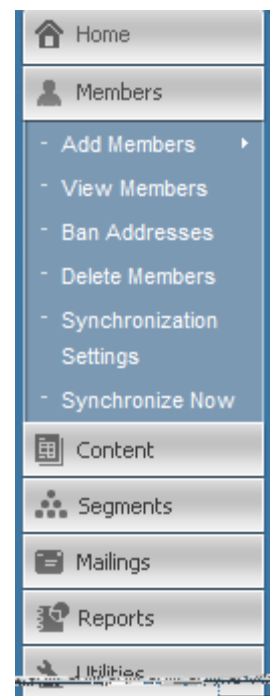

As long as the login and password combination is synchronized across all of your lists, you will be able to quickly and easily switch between the various lists for which you are the administrator.

1. Click the list name located in the top right corner of the screen
2. Select the list you wish to modify

Managing Members

1. Click the Memberstab on the left
2. To Add a member
 - a. Click Add Members—add member
 - b. Enter the email address you wish to subscribe
