

Office of the Provost

his career have now become the standard approach in the stability analysis of bipedal locomotion used by researchers internationally. He has made several fundamental contributions to Rigid Body Impact Mechanics including the solution of multi-contact problems that has since been established as the main method in mathematical modeling of contact problems in robotics. He also discovered the existence of micro collisions and their effect on rigid body impacts. This discovery challenges an inconsistency in Newton's definition of the restitution coefficient and offers a new method to resolve the inconsistency. One expert even referred to Dr. Hurmuzlu's contribution to impact theory as "probably the most significant since Newton."

In addition to world-class research, Professor Hurmuzlu has established a reputation as a first

concerning the U.S. No Fly List. His blog posts have been featured on *Lawfare*, *Just Security*, and *Concurring Opinions*.

His work on Russian law has been noted by name by the editors of *The New York*

eighth book, *Russia's Food Revolution: The Transformation of the Food System*, is set for release this year and work is underway on the next.

He has edited another eleven volumes, most recently the seventh edition of the very well-received *Putin's Russia: Past Imperfect, Future Uncertainties*. Ygi tgpø"EX"ewttgpwñ "ikuu"qxgt"322"r ggt-reviewed journal articles and 40 book chapters or contributions to edited volumes. Wegren is often funded for his research, typically from foundations such as the Rosa Luxemburg Foundation and the Norwegian Research Council, in amounts generally under \$50,000. Nevertheless, he stands out among political sciences in his tireless application for both internal and external funding and for his success in landing it.

Uwf gpwø'eqo o gpw"qp"Y gi tgpø"gxcncvqpu"gxkpeg"c"utqpi "cr r tgekc"qp"ht" what and how he teaches. Last semester, for example, answers to the question, "Why is civil society in decline?" were "the rise of authoritarianism" and "the decline of liberal democracy." He has also co-edited the book "The Future of Democracy" with the late, great political scientist Robert Dahl. He is also the author of the book "The Future of Democracy" with the late, great political scientist Robert Dahl.

Again, please join me in congratulating and thanking these exceptional faculty for their extraordinary service to SMU and our students!

Sincerely,

Elizabeth G. Loba
