Academic Development of Student-Athletes (ADSA) academic feedback requests

The Academic Development of Student-Athletes (ADSA) collaborates with faculty to ensure the success of student-athletes. Twice each semester, ADSA solicits feedback from the instructors of student athletes to align with key academic milestones such as Early Progress Reports (EPRs), Mid-Term Progress Reports (MPRs), and the final withdrawal deadline.

Faculty from whom feedback is requested during one or both collection periods will be contacted via

student-athlete population. The submission window is currently open and will close on Monday, March 3. The second feedback request, covering all student-athletes, will open on April 7 and close on April 21.

Learn more about how to [submit ADSA-requested feedback on student-athletes in your courses here](#).
